EDUCATION

Business and Finance

Institute University of Gulf of the Guinea

10/2021 - 06/2022

Doula, Cameroon

Courses

- Accountancy

Full Stack Engineering

CodeCademy

10/2022 - 11/2023

Cameroon

Courses

- FrontEnd Engineering
- BackEnd Engineering

WORK EXPERIENCE

FrontEnd Developer

ProfuseCC

09/2022 - 11/2023

Texas, USA

Achievements/Tasks

- Create visually appealing user interfaces using HTML, CSS, React, Redux and Tailwind CSS
- Ensure responsive design and compatibility across different devices and browsers.
- Implement client-side scripting for interactivity and dynamic behavior.
- Optimize performance through techniques such as file size reduction and caching.

Software Engineer Intern

Hebron Global LLC

12/2023 - 03/2024

Douala, Cameroon

Achievements/Tasks

- Development and coding tasks, including writing code, implementing features, and fixing bugs.
- Testing and quality assurance responsibilities, such as writing and executing test cases, performing manual and automated testing, and reporting bugs
- Documentation tasks, including creating and updating technical documentation, reviewing documentation produced by others, and ensuring accuracy and clarity
- Project planning and coordination, involving defining project requirements, estimating effort and timelines, tracking progress, and communicating updates to stakeholders

ReactJs

NodeJs

Javascript

TypeScript

NextJs

TailwindCSS

HTML

MongoDB

PostgreSQL

CSS

ExpressJS

FireBase

AWS

Redux

Flutter

PERSONAL PROJECTS

ECommerce Website (09/2023 - 10/2023)

- I created a full stack application using the MERN stack, showcasing my expertise in building seamless user interfaces and robust back-end functionalities.

Multi Page Web Application (04/2024 - Present)

- I am currently building a multi-page web application using the MERN (MongoDB, Express.js, React, Node.js) stack. This project demonstrates my proficiency in creating dynamic and responsive web applications with integrated front-end and back-end functionalities, showcasing my full stack development skills.

ORGANIZATIONS

FreeLance (04/2024 - Present)

As a freelance Full Stack MERN Developer, I crafted custom web applications for clients using MERN Stack

CERTIFICATES

Full Stack Engineering (10/2022 - 11/2023)

Completed Codecademy's Full Stack Developer course, mastering essential programming languages, and concepts in front-end and back-end development.

AWS Cloud Practitioner (11/2023 - Present)

Currently studying AWS Cloud Practitioner essentials to gain expertise in cloud services, security, and deployment strategies.
